Moving & New Home OS

MOVE - MEASURE - FIT - PLAN - BUY - PACK - MOVE IN

A working system for fewer mistakes, fewer missed tasks, and less rework.

Important: This is a preliminary measurement check and does not replace an on-site mover assessment.

Five-minute quick start

- 1 Set up the project
Move date, homes, currency, and unit.
- 2 Measure the full route
From the old-home exit to the destination room.
- 3 Add the largest furniture
Review entry, room fit, and usability.
- 4 Plan tasks and boxes
Let the dashboard identify the next action.
- 5 Export and back up
Save JSON and print the command sheet before move day.
